

BESPOKE CONCEPT DESIGN SERVICE

Every project begins with thoughtful design. While you may choose pieces from our existing portfolio, most of our work is developed through our Bespoke Concept Design Service — a collaborative process where we design specifically for your space.

We work closely with wedding planners, interior designers, and clients to create concepts that respond to the space, occasion, and vision — from weddings and private celebrations to public installations and interiors.

Service Fees

- General: Starting from IDR 12,000,000
- Semi-Permanent Interiors: IDR 20,000,000
- Weddings & Celebrations: IDR 15,000,000 per key area (e.g., entrance, altar, dining)

We encourage clients to share a ceiling budget or target figure at the outset.

This helps to guide design decisions on materials, techniques, scale, and level of detail from the outset. The process concludes with the submission of our quotation for the client's approval, which can be discussed and adjusted based on final selections — unless a budget has already been confirmed, in which case we work to it directly.

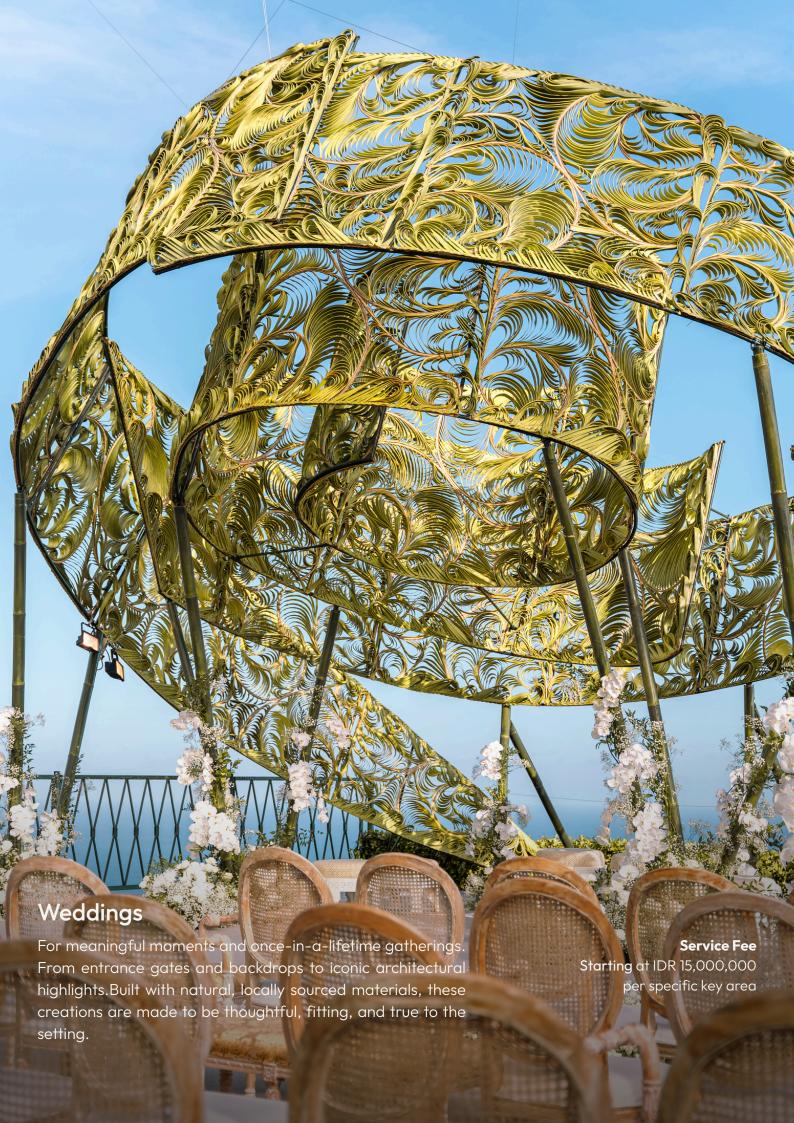

What's Included

- A site visit
- A concept and design deck, including moodboards
- 2D design renders (via Procreate) of the proposed installations
- An itemised quotation for production and installation
- A scale model (maquette) with material samples (for semi permanent and large-scale wedding installations)

Please note: Technical drawings and 3D renders are not included

Backdrop

Backdrops bring definition to a space, offering a natural frame for moments that matter. Made from sustainably sourced materials, each piece is shaped with attention to material, texture, and purpose.

Featured Dimensions $W \times H: 7 \times 3 \text{ m}$

PriceIDR 26,750,000 to 60,000,000
and above

Gate

A handcrafted welcome that sets the tone. Our gates and archways feature woven details using locally sourced plant materials, expressed through an all-natural colour palette that complements any setting.

Featured Dimensions $W \times H: 9 \times 4.5 \text{ m}$

PriceIDR 20,000,000 to 47,750,000
and above

Photo Opportunity

A space designed for shared moments. Our photo opportunities are built from local plant materials and shaped to frame photographs with character — adding something personal and memorable to your event.

Featured Dimensions

W x H: 5.9 x 3.4 m

Price

IDR 15,000,000 to 30,000,000 and above

Sculptures

Each sculpture explores material and form — some experimental, others rooted in tradition. Crafted by hand using local, sustainably sourced materials, these pieces vary in shape and scale, created to respond to purpose, space, and the story they enhance

Featured Dimensions

W x H: 2 x 1.4 m

PriceIDR 13,000,000 to 100,000,000
and above

Woven Furniture

Our handmade furniture with woven coconut leaf upholstery is a masterclass in leaf creation. It is a superb edition for a wedding or photoshoot and even interior design projects. We can build custom shaped furniture in-house or upholster your existing furniture or chosen rentals. Weaving styes and application can be adapted to suit individual themes.

Featured Dimensions

 $L \times W \times H$: 2 x 1.2 x 0.7 m (table) 5.6 x 5.2 x 4.7 m (chairs)

Price Starting from IDR 6,000,000

How to work with us

- Send your enquiry by filling in our client questionnaire. We will review your submission and respond via email to advise whether to select from our existing portfolio or proceed with a fully tailored Bespoke Concept Design Service.
- Custom Order 2 50% of the Design fee to be paid to commence our Concept and Development Service. 2-2.5 weeks
 - Site Visit

 We will conduct a site visit to better understand the venue, its layout, and surroundings.
- Design Proposal 4 We will send you a concept and design deck with moodboard drafts to review together in an online meeting. Following this, you'll receive the first draft of 2D design renders (hand-drawn via Procreate).
- Final Payment for 5 A second invoice will be issued for the remaining 50% of the Design Fee design fee.
 - Design In a second online meeting, we will review and finalise the designs, with up to two revisions if needed. The final deliverables include the final 2D design renders, a scale model (maguette) with selected material samples.
 - **Quotation**7 We will provide an itemised quotation for production and installation. If a budget is provided at the beginning, we will shape the design to align with it ensuring the right balance of scale, detail, and materials.
 - Production A 50% non-refundable deposit is required to commence production and make a site visit if required. We will also confirm the production timeline and payment schedule.
 - Delivery & 9 On completion, your leaf creation will be delivered and installed by our expert team. For deliveries outside Bali or overseas, please refer to the Delivery & Installation Guidelines for more details.

Delivery & Installation

We are specialists in the delivery and installation of our natural leaf creations. Our team has extensive experience managing complex installations across Bali. We understand scale, site-specific needs, and the demands of working with organic materials.

For international projects, logistics are complex, but with the right planning, it is possible to achieve export. We understand the requirements of our leaf products to ensure the conditions necessary for safe transit and can work alongside your chosen delivery company. Our responsibility ends once your order leaves our workshop.

All delivery and installation costs will be clearly outlined in a separate section of your full itemised quotation. Below, we share key insights from our experience across a wide range of projects.

Within Bali

We deliver and install all across Bali. Fees are calculated using the information provided in your questionnaire and following our site visit, including factors such as the distance from our workshop, venue accessibility, and the timeframe allocated for installation

Elsewhere in Indonesia

Delivery to other parts of Indonesia can be arranged. For locations outside Bali, we will need to conduct a preliminary site visit to assess whether installation is possible, access to site and local availability of natural materials.

International

For international projects, all shipping must be arranged by the client. We recommend trusted providers such as Convelio or DHL.

Fresh leaf materials cannot be exported due to export/import regulations and quarantine procedures. For overseas delivery, we suggest using dried materials only — such as bamboo, dried lontar (cream), and dried coconut leaf (brown).

Delivery & Installation to Jakarta

Logistics Fees include:

- Overland transport for installation components from Bali to Jakarta via truck
- Flight tickets for approximately four team members (depending on project size)
- One night of accommodation and F&B allowance for team members throughout installation
- On-site installation fees

Estimated Cost: IDR 25,000,000

Note: Dismantle and disposal of installation/s to be organised by commissioners

FAQ

What materials do you use?

We work exclusively with natural, biodegradable materials including:

- Slepan and Busung, two types of coconut leaf carefully sourced from West Bali
- Lontar palm, a cream-toned dry leaf, perfect for neutral-toned installations
- Split bamboo, woven by hand for out of this world sculptural aesthetic

All installations are made fresh to order. We do not stock pre-made pieces or offer rentals.

How long do your installations last?

Our work is created from living plant material - and like all living things, it changes with time.

- Fresh green colour lasts up to 3–4 days after installation.
- Leaves will then dry gradually over a 2.5-week period, turning from deep green to yellow to a stunning bronze-brown tone.

Once dried, the weaving remains strong and beautifully sculptural for months. If you're seeking that bronze aesthetic from the start, we'll need an extra 2 weeks to allow the drying process to occur naturally. We have experience that our installations can last up to three months outdoors (it may require maintenance call-outs) and five years for interior semi-permanent sculptures.

Do you offer coloured or painted designs?

We don't paint our installations. Colour masks the natural texture and craftsmanship of the leaf. We do, however, offer a light metallic spray (in gold, bronze, or silver) upon request for a subtle shimmer.

How much notice do I need to place an order?

We require a minimum of 2 weeks notice for installations and wearable art to accommodate:

- Material sourcing (especially Slepan leaf from West Bali)
- Custom bamboo or rattan structures
- Detailed weaving time
- Pre-scheduled orders in our calendar
- Quality checks and optimal leaf condition

For bronze-tone installations, please add 2 extra weeks.

I'm planning a wedding — when should I reach out?

If you'd like a custom installation, please contact us 3–4 months in advance so we can work closely with your planner and stylist. If you're choosing from our existing collection, a shorter lead time may be possible.

Do you rent out your installations or woven pieces (including jewelry)?

No. Every piece we make is crafted fresh, specifically for your event, and is not available for rent.
